

Hykon®

Powering the Nation

An ISO 9001 : 2015 Company

Stainless Steel Water Tank

Key features

- ◆ Made from 304 food grade stainless steel
- ◆ Insulated mirror finish (Heat Reflecting Technology)
- ◆ Life long durability & leak proof
- ◆ Modern technology (Non Bacterial)
- ◆ No harmful toxins
- ◆ Easy clean design & Eco Friendly
- ◆ Weather resistant
- ◆ Suitable for milk/water & industrial use
- ◆ Water Control Switch installed
- ◆ Strong stand available
- ◆ Sediments accumulated at the bottom of the tank can be drained out easily.
- ◆ 1 year warranty against manufacturing defects
- ◆ Scrap value higher than invested

Model	Diameter (cm)	Height			Thickness (mm)	Breather (inch)	Inlet (inch)	Outlet (inch)	Cleaning Hole (inch)
		Flat Bottom (cm)	W/Stands (cm)	Stands No (pc)					
		HYST-500	72	116					
HYST-1000	97	122	153	3	0.4	3/4"	3/4"	1"	1"
HYST-1500	105	143	178	4	0.5	3/4"	3/4"	1-1/2"	1"
HYST-2000	118	161	178	4	0.5	3/4"	3/4"	1-1/2"	1"

POLY TANKS	STAINLESS STEEL
Chemicals used in making the tanks like Bisphenol A (BPA) and dioxins will mix with water and will cause health problems including cancer.	Made up of SS 304 food grade stainless steel, so no health problems
At strong heat, chemicals start to melt down & mix with water.	Equipped with insulated mirror finish which reflects heat therefore no heating
Poly tanks can only be used to store certain liquids	A steel tank can be used to store most types of liquids
Water stored will get affected by Bacteria, Fungus & other micro organisms.	SS 304 grade SS tank used. So not affected by Bacteria, Fungus etc.
Regular cleaning is required	Less maintenance and eco friendly
Lesser life span compared to SS	Longer life than poly tanks
Large size tanks cannot be manufactured	Large sizes can be made
Plastics tanks are not food grade	SS 304 stainless steel tank is of food Grade quality.

National Award Winner

ISO 9001 : 2015

Domestic Application :

Fire water tank, sulfur water (spring water) tank, large-scaled water tank
Agriculture: large-scaled farm feed bucket, fish bucket

Industrial Application :

Chemical industry: chemical solution tank, chemical powder tank
colloid medicament tank, industrial sewage tank, electroplating solution
sewage filter tank
